

Restaurant Campaign Reporting Form for Pods

Thank you for participating in the Restaurant Campaign. If you have ever asked a restaurant to adjust a menu item in order to remove animal products or to make it healthier, you are already participating! The Campaign is turning individual actions into a national collaborative Campaign with the goal of shifting restaurant menus across the country - so that it becomes normal, even expected, for restaurants to offer at least one vegan/WFPB meal on their menus. **Please provide the following information for your Group Leader to report, so that your efforts can be counted and contribute to the larger movement.**

- 1) Restaurant Name
- 2) Restaurant City, State
- 3) Name of the vegan/WFPB meal that has been added to the menu (electronic, printed, or a “specials” board) at this restaurant
- 4) Date of Pod Meeting/when this item was first reported
- 5) Who reported this item

Please list every new menu option added at a restaurant on its own line. Thank you!

Restaurant Name	Restaurant City, State	Name of the Vegan/WFPB meal added to menu	Date Reported	Person Reporting*
Example: Bella Cucina	Springfield, NY	Marinara Pizza	7/7/2017	Mel Smith

*This is for internal purposes only.
